

# PERSONAL PROTECTIVE EQUIPMENT REQUIREMENTS (P.P.E) (CORONAVIRUS MEASURES)

## General

- Gloves must be worn at all times
- Protective eyewear/visor is highly recommended to be worn at all times
- Face mask must be on your person at all times (FFP 3, 2 and 1 only)
- Alternatively, respiratory protective equipment (RPE)
- Adhere to site rules

## Option 1

- If the 2 metre (6ft) social distance rule is to be breached, face masks/RPE must be raised across mouth and nose.

## Option 2

If the above **cannot** be achieved due to no P.P.E, Site Manager should consider whether the activity should continue and, if so, risk assess it using the hierarchy of controls below:-

- Keep group of operatives as small as possible
- Keep this to 15 minutes or less where possible
- Isolate area from other workers
- Increase ventilation in enclosed places

**Note:** Designated waste bin for used PPE will be double-bagged and put in the non-sorting waste skips.

**Failure to adhere to site rules may mean you will be asked to leave site for the safety of yourself and others.**
