

## *Britmet Seminars – Tailoring the Total Roof Solution*

Our presentations cover these product ranges from our granulated lightweight roofing products, the only BBA backed structural support cassette, Flat to Pitch conversions to our latest innovation, Solar Photovoltaic. We can present these products as individual seminars if you only wish to focus on one section, alternatively we can combine all three and present these in one informative seminar.

We pride ourselves on offering the “Total Roof Solution” helping and assisting you every step of the way .

We believe our products can save you time and money on any project and would relish the opportunity to show you how.

Granulated, Lightweight Roofing systems

Flat to Pitch Conversions

## Social Solar Solutions

PV systems to suit all system requirements
