

Wilkins Safety Group

Health & Safety Consultants and Award Winning CDM Specialists

Construction Site Safety Support

25
YEARS
ANNIVERSARY

Professional Health & Safety Trainers

Accidents at work are most common in the construction industry and consequently the Health and Safety Executive (HSE) focus a lot of their energy upon this sector. Due to insurance requirements, Principal Contractors are becoming much tougher with their sub-contractors with regard to safety at work

THE WILKINS SAFETY GROUP are offering safety support to construction firms that cannot afford a full-time health & safety manager nor do they have the time to get involved in detailed legislative requirements themselves.

THE WILKINS SAFETY GROUP provide you with the site management paperwork such as Induction Sheets, Visitor sheets, Contractor Records, Site Safety Diary, Scaffold & Excavation Registers, Accident Book. We also provide you with Risk Assessments, COSHH Assessments and Method Statements.

We are also qualified to act as CDM Principal Designers as well as CDM advisers under the Construction (Design & Management) Regulations 2015 and consequently can also help construction firms who have difficulty writing a construction phase health and safety plan, method statements etc.

THE WILKINS SAFETY GROUP are also able to provide you with a Construction Phase Health & Safety Plan as required under the Construction (Design & Management) Regulations – CDM. THE WILKINS SAFETY GROUP can also provide safety training that is approved for grants for CITB registered companies.

What does it cost you?

- Annual enrolment which provides Health & Safety advice and help line from less than £10 a week
- Site Safety Management Paperwork - £160 per site)
- Regular site safety visits as often as required or requested (minimum 1 per month) at a rate previously agreed with you – cost of visits depends on where site is, as it includes travelling to and from site.

The cost can be tailored to match your budgets.

Your only commitment is to the Annual Enrolment. You decide which sites you want us to visit and whether you want us to provide site paperwork etc or not.

“ Wilkins Safety Group have eased the worry of health and safety and shown us, through training and visits, how to manage safety on site more efficiently. Jon Wilkins gives clear, sound advice and has helped us to win larger more lucrative contracts because we had the proper safety controls in place”
