

Wilkins Safety Group

Health & Safety Consultants and Fire Risk Assessment Specialists

Fire Risk Assessments

For employers, landlords or occupants of non domestic premises.

25
YEARS
ANNIVERSARY

Experienced ex Fire Officers

In England and Wales, if you're an employer, owner, landlord or occupier of business or other non-domestic premises, you are responsible for fire safety and are required to have thorough Fire Risk Assessments carried out

The Fire Safety Order also applies if you have: paying guests - e.g. if you run a bed and breakfast, guest house or let a self-catering Property.

The advantages of our service

There are many important advantages to you if we carry out your Fire Risk Assessment.

Our commitment to you is that we:

1. Complete your assessment in full consultation with yourself at your premises.
2. Ensure your premises have adequate fire safety arrangements in place.
3. Ensure adequate fire safety systems are in place for the protection of your staff and clients.
4. Focus on your business needs and your legal requirements to comply with the Fire Safety Order.
5. Provide an experienced ex Fire Officer with over 30 years Fire Safety experience.
6. If required we can provide floor plans of your premises showing all of the fire safety arrangements in place.

We always guarantee our fire risk assessments therefore in the unlikely event that the fire authority is unhappy with any aspect of the premises; we would work closely with you and the fire service to resolve the differences of opinion. This would not incur any additional charges for our consultancy time.

Please note:

- We do not sell fire extinguishers or any other kind of fire safety equipment ensuring our commitment to you is never compromised.
- We can help all businesses even if the fire service have visited and issued a non-compliance notice or Prohibition notice. We can liaise with the enforcing authority to quickly resolve any short comings the fire authority has issues with.
- Our team includes an AutoCAD technician who will produce floor plans of your premises if you require them. The floor plans will give details of all the fire safety provisions that are provided. This greatly assists the fire inspecting officers when auditing your assessment as they can immediately see the fire safety arrangements provided

***Your Business is SAFER
